

TITANIUM EURO-POSTS®

COMPLETE KIT

Réf. 7782RF

TECHNICAL FEATURES

- Technical cylindo-ogival root canal post made of titanium.
- Passive anchorage by sealing.
- Retention thread on the post's body and sanded surface for a better adhesion of the sealing cement [fig. 3].
- Retentive head with grooves for the length adjustment and large base for the post stabilization [fig. 1 et 2].
- Groove along the post's body for the evacuation of the excess of sealing cement. No stress in the apical zone [fig. 2].
